

§ 3402.1

- 3402.5 Overview of National Needs Graduate Fellowship Grants Program.
- 3402.6 Fellowship appointments.
- 3402.7 Fellowship activities.
- 3402.8 Financial provisions.

Subpart C—Preparation of a Proposal

- 3402.9 Application package.
- 3402.10 Proposal cover page.
- 3402.11 National need summary.
- 3402.12 National need narrative.
- 3402.13 Budget.
- 3402.14 Faculty vitae.
- 3402.15 Appendix.

Subpart D—Submission of a Proposal

- 3402.16 Intent to submit a proposal.
- 3402.17 Where to submit a proposal.

Subpart E—Proposal Review and Evaluation

- 3402.18 Proposal review.
- 3402.19 Evaluation criteria.

Subpart F—Supplementary Information

- 3402.20 Terms and conditions of grant awards.
- 3402.21 Grant awards.
- 3402.22 Other Federal statutes and regulations that apply.
- 3402.23 Confidential aspects of proposals and awards.
- 3402.24 Access to peer review information.
- 3402.25 Documentation of progress on funded projects.
- 3402.26 Evaluation of program.

AUTHORITY: 7 U.S.C. 3316.

SOURCE: 59 FR 68073, Dec. 30, 1994, unless otherwise noted.

Subpart A—General Introduction

§ 3402.1 Applicability of regulations.

(a) The regulations of this part apply to competitive grants awarded under the provisions of section 1417(b)(6) of the National Agricultural Research, Extension and Teaching Policy Act of 1977, as amended, 7 U.S.C. 3152(b)(6). This statute designates the U.S. Department of Agriculture (USDA) as the lead Federal agency for agricultural research, extension, and teaching in the food and agricultural sciences. It authorizes the Secretary of Agriculture, who has delegated the authority to the Cooperative State Research, Education, and Extension Service (CSREES), to make competitive grants to land-grant colleges and universities,

7 CFR Ch. XXXIV (1–1–04 Edition)

colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and to other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences, to administer and conduct graduate fellowship programs to help meet the Nation's needs for development of scientific and professional expertise in the food and agricultural sciences. The fellowships are intended to encourage outstanding students to pursue and complete graduate degrees in the areas of food and agricultural sciences designated by CSREES through the Office of Higher Education Programs (HEP) as national needs.

(b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 3402.2 Definitions.

As used in this part:

Citizen or national of the United States means

(1) A citizen or native resident of a State; or,

(2) A person defined in the Immigration and Nationality Act, 8 U.S.C. 1101(a)(22), who, though not a citizen of the United States, owes permanent allegiance to the United States.

College and university means an educational institution in any State which

(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate,

(2) Is legally authorized within such State to provide a program of education beyond secondary education,

(3) Provides an educational program for which a bachelor's degree or any other higher degree is awarded,

(4) Is a public or other nonprofit institution, and

(5) Is accredited by a nationally recognized accrediting agency or association.

Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in the food, agricultural, renewable natural resources, forestry, and

physical and social sciences in the broadest sense of these terms including but not limited to research, extension and teaching activities concerned with the production, processing, marketing, distribution, conservation, consumption, research, and development of food and agriculturally related products and services, inclusive of programs in agriculture, natural resources, aquaculture, forestry, veterinary medicine, home economics, rural development, and closely allied fields.

Graduate degree means a Master's or doctoral degree.

State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Marianas, the Trust Territory of the Pacific Islands, the Virgin Islands of the United States, and the District of Columbia.

Teaching activities means formal classroom instruction, laboratory instruction, and practicum experience specific to the food and agricultural sciences and matters relating thereto conducted by colleges and universities offering baccalaureate or higher degrees.

§ 3402.3 Institutional eligibility.

Proposals may be submitted by land-grant colleges and universities, by colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and by other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences. All applicants should be institutions that confer a graduate degree in at least one area of the food and agricultural sciences targeted for national needs fellowships, that have a significant ongoing commitment to the food and agricultural sciences generally, and that have a significant ongoing commitment to the specific subject area for which a grant application is made. It is the objective to award grants to colleges and universities which have notable teaching and research competencies in the food and agricultural sciences. The grants are specifically intended to support fellowship programs that en-

courage outstanding students to pursue and complete a graduate degree at such institutions in an area of the food and agricultural sciences for which there is a national need for the development of scientific and professional expertise. Therefore, institutions which currently have excellent programs of graduate study and research in the food and agricultural sciences dealing with targeted national needs are particularly encouraged to apply.

Subpart B—Program Description

§ 3402.4 Food and agricultural sciences areas targeted for national needs graduate fellowship grants support.

Areas of the food and agricultural sciences appropriate for fellowship grant applications are those in which developing shortages of expertise have been determined and targeted by HEP for national needs fellowship grant support. When funds are available and HEP determines that a new competition is warranted, the specific areas and funds per area will be identified in a FEDERAL REGISTER notice announcing the program and soliciting program applications.

§ 3402.5 Overview of National Needs Graduate Fellowship Grants Program.

(a) The program will provide funds for a limited number of grants to support fixed graduate student stipends and fixed cost-of-education institutional allowances. These grants will be awarded competitively to eligible institutions. In order to encourage the development of special activities that are expected to contribute to Fellows' advanced degree objectives, the program will also provide competitive, special international study or thesis/dissertation research travel allowances for a limited number of USDA Graduate Fellows.

(b) Based on the amount of funds appropriated in any fiscal year, HEP will determine:

(1) Whether new competitions for graduate fellowships and/or special international study or thesis/dissertation research travel allowances will be held during that fiscal year;
